EXPERIENCE

Freelance

New York, NY

August, 2016 - Present

Freelance Web Developer

Designing, testing, and implementing back ends for clients' using Sinatra, Rails, and Express.js.

General Assembly

New York, NY

June, 2016 - Present

Web Development Immersive

Building original web applications in a three-month, full-stack web development immersive camp.

tripEd

- Ruby on Rails app that allows teachers to search for field trip providers by location, topic, accessibility, etc., and book trips at participating locations, and uses Redis-Rails to cache results from Google Geolocate / Maps API to smooth out user experience.

Petinder

- I created full-stack app based on HTML, CSS, Javascript, jQuery, Express.js, and pSQL to create a Tinder-parody that geolocates the user, creates profiles for adoptable pets, and allows the user to save them for later viewing.

Nickelodeon

New York, NY

June, 2013 - May, 2016

Production Clerk

Managed freelancer payroll for Nick On Air Promotions division.

Wrote and produced four original digital shorts for Nick.com.
